This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

on the fifth Artikle the Committee appointed in march Last to Consider the Rights of the Collonys & of this Province in particular Reported as follows (viz)

It is our opinion that mankind are by Nature free, and the End and Designe of forming Social compacts, and entering into civil Society, was that each member of that Society, might enjoy his liberty and property, and live in the free exercise of his Rights, both civil and Religious, which God and Nature gave ; except such as are *expresly* given up by compact. this we apprehend to be the Scope of that noble System of Government, the English Constitution, The Great Wisdom in giving so just a ballance of Power, through all its parts, very justly excites admiration : and when we apprehend a Designe to overthrow the Same in one part by any person or persons, (by Distroying Dependance of one of the Community, on the other, and Substituting, in its room, a crafty, or political Dependance, the former being as much Superior to the latter, as the wisdom of God, is Superior to the Crafty Designes of wicked corrupt plunderers of mankind) it is our duty, to exert ourselves against it to the utmost of our power for by Nature, and the Charter of this Province, we are intitled to all the Rights, and priveledges, of the above Constitutions, as though we were born within the Realm of England : and it is our opi[ni]on that those Rights & Priviledges, have been unjustly infringed upon, and therefore Calls for our imediate attention : it ought to render the Charter more Sacred, when we figure to ourselves, the amazing enterprize of leaving feilds, and gardens, and emigrate into a hedious wilderness, 3000 miles Distant, this was the Case of our worthy ancestors who Removed into this Remote Region, "with no other view then to enjoy liberty of Conscience, without hazard to themselves, or offence to others, they were not Criminals, nither were they necessitous, nor had they made any attempt to overthrow the Church, or State at home :" but removed at their own expense, with the Consent of their Soverrein, in a laudable and peaceable manner, and by that means, as great a teritory is aded to his Dominions as all he before Reigned over, and took care to Secure to themselves in their Retreat, all priveleges and immunitys of home born Subjects of Great Britain, without reserve, Secure, as plighted Royal faith could make them, and that they might have a more Just, and equitable title to their lands, than barely holding them under the

King of Great Britain, whose Sole title was Discovery, it then being the property of the Natives, and a very Great part of the Continent Stills Remains so they purchased their land of those aborigens, who received their title (for what is ——) from the King of Kings, and this title being transmitted to the present Generation by heirship, as well as by the law of equity, and the English constitutions Therefore, to infringe those rights, that are so well founded, both in nature, and civil government, has a tendency, to bring an aspersion upon the most Sacred compacts, and too Great a greavance for us Sileintly to bear: The malancoly enumeration of the infringments of our Rights, in every particular is needless, when they are so accurately Set forth by our Brethren, the Respectable inhabitants of the Town of Boston; in the Boston Pamphlet (so Called) and Also, not only very Sensibly exprest, by a Great Number of the Principle Towns, but the Province in General, for which Recent instance of their Publick Virtue, Patriotizm, they have rendered themselves Dear, to every lover of his Country, and mankind in general, for which they have highly merited our greatfull thanks: it is our opinion, that the infringments of our rights and libertys, and those of all the Inhabitants of British America / Courts of Inquisition appointed, as arbitary, and terrable as those under the Popes Jurisdiction, the appointment of papist, to high places of trust, in the British Dominions, natural tend, to alienate the effections of millions, of truly Loyal Subjects, of the English Government) would never have recived the Royal assent, had not his majesty been misinformed: we therefore think it our Duty as Good and loyal Subjects, to the King, and Constitution, to Joyn with our Brethren in offering our Sentiments, of all British America) that his majesty may be undeceived, in so Important a matter, and we are of opinion, that there never could be a Just Prentance, that we ever were unwilling to pay our full proportion, of the Common burthens. have only to Recite as an incontistible proof, instances of the British Parliment, in Consequence of being Sensible we had Done more than our Share, in the repeated wars that the Nation has been ingaged in, has reimbursed considerable Sums of money to us and we have been equally as ready to venture

our lives, in Defence of his majestys Rights; and Securing his Dominions, to the utmost of our Power, as any Subjects within his Dominions, Witness the People of this Country, taking Acadie, or Nova Scotia, in 1690 at their own Expense, which was never reimbursed, and also, the Conquest of Cape Breton, at a time whe[n] the French was in Possession of madrass, and Nitherlands, and Holland lay at their mercy, flushed with a long course of uninterupted victories); our exertions, att that time, were not only the means of giving peace to Europe, but also of Settleing it, much to the advantage of great [Britain] and we are indubitably preswaded, that the proofs of Duty, and loyalty, to the best of Kings, and Constitutions, have been to ma[rked] and Conspicuous, to Escape the Notice of all well effected Subjects in the British Empire. The fond effection that ever has Subsisted in our hearts for Great Britain and its Soveriegn, has ever induced us, to Esteem it above any other Country, and as fond Children Speek of a fathers house, we have ever called it our home, and always rejoice, when they Rejoiced, to weep, when they have wept, and when ever Required to blead when they have bled! and in Return we are Sorry to Say, we have had our harbours filled with Ships of war, in an hostile manner, and troops Posted in our metropilis, in a time of profound peace, not only posted Greatly insulting, but actually Slaughtering the Inhabttants, cannon levelled against our Senate House, the fortress or Key of the Province taken from us: and as an addition to our Distress, the Commander in Cheif of the Province he had not power to controle the troops &c——

Nevertheless we are Ready, and willing to Stand forth in Defence of the King of Great Britain, his Crown and Dignity, and our noble Constitution; and when called to it to risk our lives "and in that Day let him that has no Sword Sell his Garment and buy one."

And further; that there be a Comittee of Correspondance chose, to correspond witn the Committees of correspondance, in the other Towns in this Province, to Give the Earliest inteligence to the Inhabitants of this Town, of any Designs that they Shall Discover at any time against our Natural and Constitutional Rights

Lastly that the Town Clerk, reccord the above proceedings, on the Town Book of Records, and Give an attested Copy thereof, to Such Persons as Shall be chose, a Committee of correspondance, to transmit the Same to the respectable committee of correspondance at Boston

a County Treasurer was Voted for

On the third artikle voted that the Sum of Six pounds be and hereby is Granted unto David Thomas for Collecting the Taxes the Currant year voted that he Give bond with Sufficient Bondsmen to the Town Treasurer to pay the money that Shall be Granted

and assest the Currant Year and Comitted to him to Collect as also the Province Tax that Shall [be] laid on Said Town the Currant Year and pay the Same to the Respective Treasurers agreeable to the Direction in the Warrants for Collecting the Same

On the fourth Artikle[1] the Question being put whither the Town would act thereon and it passed in the affirmative Voted that William Yong, Josiah Peirce & Timothy Bigelow be a Comittee to take the Same into Consideration and Report to this meeting in two Hours which was accordingly done and their Report being Read the Question was put whither the Town would accept the Same and it Passed in the affirmative and theire Report was as follows——

We the Freeholders and Inhabitants of Worcester, think it our duty at this important time, when affairs of the Greatest Consequence to our Selves and Posterity, are hastning to a Crisis: after due Consideration to offer our Sentiments, on the many Greivous impositions, which are laid, and are attempted to be laid, upon us: we would particularize Some of the most Intolerable ones, (viz) Courts of Vice admiralty, wherein that inestimable Previlege, trials by Jurys is destroyed, Board of Commissioners, with their numerous train of Dependants which Departments are generally filled with those, who have proved themselves to be Destitute, of honor honesty, or the common feelings [of] humanity, those who are known to be the Greatest enimyes to the people, and Constitution of this Country, even those, that have murdered its inhabitants: for a resent instance of their consumed insolence, and barbarously harising the Subject, from port to port, at the Expence of time and money, and unjustly Detaining property, we would mention the petifull case of Capt Walker, commander of the Brigantine Brothers

---

[1] Fourth article: "for the Town to Consider and act & Vote as they think proper upon a Request of Twenty Seven of the Freeholders and other Inhabitants of Said Town Relating to an act of Parliament giving a Priviledge to the East India Company to Export Teas to america Subject to Duty to Raise a Revenue for his majesty &c"

2 The governor, and Judges of the Superior Court, rendered independent of the People of this Province: we apprehend that all officers are nothing more, than Servants to the people, for whose Good only they were appointed, for which Service, they ought to Depend on those they Serve for their pay: and we are constrained to Say, that to have those who are to Judge, and Determin, on our lives, property, paid by a foreign State, imme[d]iately Destroy, that natural dependance, which ought to Subsist between a people, and their officers, and of consequence, destructive of liberty: For which reason we are of opinion, that we [are] not in the least bound in duty to Submit, to the ordering and Determining of Such officers, as [are] not dependant on the Grants of this people for their pay. but we have the Satisfaction to hear that four of the Superiour Judges, to their immortal honor! have refused the bribe offered them

But as we have had an oppertunity heretofore, Joyntly to express our minds respecting our many Greivances; we therefore Shall principly confine our observations, to the East India companys Exporting teas to america, Subject to a duty, laid thereon by the British Parliament to be paid by us, not so much as mentioned for the regulation of trade, but, for *the Sole purpose of raising a revinue;* in consequence of which we take upon us to say, that it is an addition to the many proofs that the British ministry are Determined if possable to enslave us, but we rest assured, that however attached we have been to that truly Detestable herb, we can firmly resist the Charm, and thereby Convince our enimys in Great Britain and america, that However artfull and allureing their Snares and gilded the bait, we have wisdom to foersee, and Vertue to resist

Therefor Resolved that we will not buy, Sell, use, or any ways be concerned with India Teas of any Kind, dutied or undutied imported from Great Britain, Holland or Else where, untill the unrightious act imposing a duty thereon be repealed, the former on account of the aforesaid duty. the Latter because we still maintain such a regard for Great Britain, as to be unwilling to promote the Interest of a Rival

2 Resolved, that we will break of all commercial intercourse with those persons if any their Should be in this, or any other, place, who should act counter [to] these our resolutions, thus publickly made Known, that the tea consignees, and all those that have been aiding, or assisting in interduceing the East India Companys tea among us, have justly meritèd our Indignation, and Contempt, and must be considered, and treated by us as enimys and trators to their Country. that we contemptiously abhor, and detest, all those wether in Britain or america, that are not content with the profits of their own honest industry, but contrarary to the Known principles of Justice, and equity, attempt to take the property of others in any wise without their consent

3 Resolved that we have an indispensable right at this time, and at all times, boldly to assert our rights, and make Known our grievances: being Sensible, the freedom of Speech, and Security of property, always go together: none but the base tyrant, and his wicked tools, Dreads this liberty, upright measures will allways Defend themselves, It is not only our indubitable right, but a requiset Duty, in this legal. and publick manner, to make Known our grievances: amongst the many benefitts that will naturally result therefrom, the important one we hope, of undecieving our gracious Sovereign, who from the wicked measures that have been practised against us, we have just reason to Suppose, has been artfully deluded: in Defence of whose Sacred Person, his Crown and Dignity, together with our natural, and constitutional Rights, we are ready att any time, boldly to risk our lives, and fortune while we are thus complaining of the Encroachments of Great Britain, and Strugling against arbitary power, we would not let those pass unnoticed among ourselves in Different parts of the Province, who are ever Ready to assist in Carrying the unconstitution[al] acts of the British Parliament into Execution Americans Blush! we have those among us who have advised and Solicited for Troops from Great Britain, that have shed the inocent Blood of our Countrymen! a Number of Tools to arbitary power, that have unweariedly practised every low, artifice to Decive the more unthinking part of the Community, so that the Chains of Slavery may be more Esily put on

We would also complain of the mercantile part of this Province that Notwithstanding they have made vertuous Stands, and ought to be Considered as a Respectable part of the Community, think it would be acting impartially to point out some particulars wherein we are of opinion they are Blame worthy 1st first their Conduct in importing teas Subject to a duty, while the merchants and traders in the other Goverments Desisted from it 2 when the East India Company teas was expected Soon to arrive among us, they were for most in their Complaints and very Justly represented that the Importing teas was the Greatest Drain of Cash, of any artikle of imports, and as Soon as they found the people were Sensible, that it was for their interest to oppose the tea act, and thence being sure of the trade themselves, they Raised the Retail price, upon their old Stock from three to five Pistereens Per pound and proportionably by wholesail an extortion that is Sufficient to put them to the blush, if they are not lost to every Sentiment, Except that of Self-interest, Their raising the price of Coffee Chocolate, &c when we all know that the Artikles can be Sold, and a good profit made at the usual price is all of a Peice, with the aforegoing mercantile partriotism. However we are heartily join with them in the opposition to the Arbitary acts of Great Britain

Lastly voted that the Town Clerk record the above proceedings, in the Town Book of Records and furnish the Committee of correspondance with an attested Copy of the Same, to be forwarded to the Committee of Correspondance att Boston

late unconstitutional Stretches of power, we are Sensible that this is the most difficult period that hath ever yet commenced since the first arrival of our worthy ancestors into this then unexplored uncultivated & inhospitable wilderness: and being fully sencible that the wisest head uprightest heart & the firmest Resolution, are the Necessary qualifications of the person fit & Suitable to Represent us in the great & general Court of this province the present year; have honoured you with our Suffrages for that Important office—Notwithstanding our confidence in your Vertue and abilities, think it Necessary to prescribe Some Certain Rules for your conduct—And find as there is [a] late act of the British parliament to be Enforced in ameraca with Troops & Ships of War the first of June, in order to Stop the port and Harbour of Boston, & thereby depriveing us of the Benefit of the Winds & Seas which God & Nature gave in common to mankind—We are Induced to believe that Great Britain through misinformation are lead to a prostitution of that power that has heretofore made Europe to tremble, to abridge us their Brethren in this province of our natural & Civil Rights Notwithstanding (Exclusive of our Natural Rights) we had all the priviledges & Immunities of English men confirmed to us by our Royal Charter—and as we view this hostile manœvre of great Britain as a Blow aimed through Boston at the whole of american Liberties:

Being Imboldened through a consciousness of the Justness of our Cause we in the most Solemn manner direct you, that whatever measures great Britain may take to Distress us, that you be not in the least Intimedated; and thereby Induced that whatever Requisitions, or ministerial mandate there may be in order to Subject us to any unconstitutional acts of the British parliament, to Comply therewith: But to the utmost of your power Resist the most Distant approaches of Slavery But more particularly should the people of this province through their Representatives be Required to Compensate the East India Compy for the lost of their Tea, We hereby lay the Streckest Injunction on you Not to Comply therewith: as the Destruction of the Tea was not a publick act,

we cannot see the Justness of a publick Demand as the Civil Law is open to Punish the Offenders: we rather think Instead of an Equitable Compliance, it would be the means of Encourageing Riots & Robberies, and of Consequence Render the Courts of Justice of no use

Also we earnestly Require that a Strict union of the Colonies be one of the first Objects in your View, and that you Carefully & Imediately persue every Legal measure that may tend thereto Viz^{t} that Committees of Correspondence be kept up between the Several Houses of Assembly through the Colonies—and that you by no means fail to use your utmost Endeavors that there be a general Congress, from^{d} of Deputies from the Same, that so we may unite in Some safe & sure plan, to Secure & Defend the american Liberties at this Important Crises of Affairs·

Also we Direct you as soon as may be to Endeavour that Peter Oliver Esq^{r} be brought to answer to the Impeachment against him, by the Representatives of this Province in the name of the whole people—there is a Number of other Matters Respecting the Internal polecy of the Province that in our opinion Requreirs at this Season the Attention of the Legislator. but at a time like this when Britain in Return for the Blood we have on every Needfull Occation so freely Spilt in their Cause have Reduced Thousands through a Wanton Exercise of Power in our Metropolice, to the most Pitifull Circumstances, which at first View, is Sufficiant to Excite in the Human breast, every tender, and compassionate feeling, is Enough to Engross our whole attention But should other Matters come under your Consideration, in the course of the present year, Relative to the common & ordinary Exigencies of Government, we make not the Least Doubt you will on your Part, make the Peace & prosperity of the whole province, your ultimate aim and End and by that means honour your self & us your constituents in the Choice we have made

We the Subscribers being Chosen a Comittee to Report Instructions for the Representatives beg Leave to offer the Above for your acceptance and further we Advise that the beforegoing In-

Worcester ss To Samuel Bridge one of the constables of the Town of Worcester in the County of Worcester—Greeting

Whereas a great Number of the Freeholders Inhabitants & Voters in Said Town of Worcester prefered a Petition to us the Subscribers Select men of S[d] Town therein Setting forth that there have been of late diverse Commotions & Disturbances in many Towns & Places within the Province and many actions of a Riotous Nature and dangerous tendency have been done and comitted, whereby the Property of many of his majestys good and peaceable Subjects have been destroyed their persons insulted and their lives endangered, more especially in the Town of Boston—and that by the artfull Practices of Some People there under the Pretence of Patriotism but with evil Intentions & making unrightious Gain to themselves by the Ruin and Destruction of others; a Spirit of opposition to all Law order and Good Government has been raised and propagated in many Towns and Places within this Province. and Some have been thereby so far seduced that they have unwarrantably adopted measures Subversive of publick Liberty and the good order of the State, and destructive of the Peace and wellfare of Society and in some places Votes and Resolves have been passed which they have Seen published approveing or Justifying the unwarrantable and riotous Proceedings of the Said Town of Boston and have thereby as they fear in some measure made

themselves Partakers of their guilt. [To] avoid the reproach and Imputations of any Such guiltiness falling on them they desire to bear their publick Testimony against all Riots unlawfull assemblies acts of Violence. Oppresion and robbery. more Especially would they manifest their utter Detestation and abhorrence of that unparreled act of Violence. the Destruction of the Teas. the last winter in Boston and also against. the unlawfull Force and Violence in Diverse riotous acts comitted on the Persons and properties of Sundry good People in this Province to whom the Said Teas were consigned—and at the annual meeting in Worcester in march last certain resolves were passed, and Voted to be Entered on the Records of the Town of Worcester against the Express will and opinion of the respectable Inhabitants of the Town then assembled. and had not the members of the. Comittee themselves who made or copied, these resolves Voted for their being accepted and recorded there would have been a majority of the Town against the acceptance of them and at that time many of the Sober Judiceous People of the Town thought that those resolves were calculated to Serve Seditious Purposes & some of them did therefore Enter their Protestation in writing against the Said resolves and proceedings and desired the Same might be Entered and recorded with the Record of the Town. yet hoping to prevent it the Town did unreasonably & hastily Vote that the Said Protestation should not be recived or recorded—and they have reason to apprehend there are many more Persons of Consideration and Interest within said Town that did not then protest for want of opportunity to do it that would be glad of a fit Time for doing it and discovering their mind on many late acts & proceedings in a publick manner— and they are of opinion that were the same matters now again to be Considered and acted on by the Town their Proceedings would be very different from what they were before. at least, that such Number would now protest and would before, had they been present as are the owners & proprietors of by far the largest share of the Interest & Property of the Whole Town & Praying that a meeting of the Said Town may be warned that the Inhabitants being Vouters may be assembled, as soon as may be. and so have an opportunity of declareing their Sentiments and acting with Freedom in a legal way with respect

to the Votes resolves Protestations &c before reffered to. and to examine into the Proceedings & Conduct of certain Persons in the Town of Worcester Stiling themselves the Comittee of correspondance for the Town and their power & athority may be exam[d] into & they required to lay before the Town all their Proceedings and doings as a Comittee together or apart Since they have assumed that Charactor. and that they lay before the Town all Such advices Letters. and Intelligence as they or any of them Shall have recived and from whom they had it relateing to publick matters &c and produce true Copies of all Such advices and Letters as they or any of them in the Course of their Correspondence have communicated to others that the Town may have a full & fair opportunity of publickly examining into their whole conduct & proceedings—as by Said Petition appears

You are therefore hereby required in his majestys Name in the usual way and manner to warn & give Notice to the Freeholders & other Inhabitants of Said Town qualified according to Law to Vote in Town affairs to meet and assemble at the meeting House in Said Town on monday the Twentieth Day of June next Three oClock afternoon then and there in the first Place to Choose a moderator

2 To act on the Several matters and things contained in Said Petition & to recive the Report of the Comittee of Correspondence relative to their proceedings as therein mentioned and for the Town to act on all matters mentioned in S[d] Petition as they Shall Judge Proper

hereof fail not and make Return of this warrant with your Doings to Some of the Select men before Said meeting

[At this meeting a protest offered by the loyalists was rejected, but was entered in the town book by Clark Chandler, the town clerk. This fact did not come to the knowledge of the patriotic party until some time after. The protest with a brief note prefixed, was published in the Boston News Letter of June 30, and in the Massachusetts Gazette of July 4, 1774, as follows:—

Messrs. Printers:

If you please you may give the following Protestation &c of us a few friends of truth, peace and order, a place in your paper: for it is believed that we and many others thro' the Province, have too long already held our peace.

"At a meeting of the inhabitants of the Town of Worcester, held there on the *20th* day of June, A. D. 1774, pursuant to an application made to the Selectmen by 43 voters and freeholders of the same town, dated the *20th* day of May last, therein among other things, declaring their just apprehensions of the fatal consequences that may follow the many riotous and seditious actions that have of late times been done and perpetrated in divers places within this Province; the votes and proceedings of which meeting are by us deemed irregular and arbitrary:

Wherefore we, some of us who were petititioners for the said meeting, and others, inhabitants of the town, hereunto subscribing, thinking it our indispensable duty, in these times of discord and confusion in too many of the towns within this Province, to bear testimony in the most open and unreserved manner against all riotous, disorderly and seditious practices, must therefore now declare, that it is with the deepest concern for public peace and order, that we behold so many whom we used to esteem sober, peaceable men, so far deceived, deluded and led astray, by the artful, crafty and insidious practices of some evil-minded and ill-disposed persons, who, under the disguise of patriotism, and falsely styling themselves the friends of liberty, some of them neglecting their own proper business and occupation, in which they ought to be employed for the support of their families, spending their time in discoursing of matters they do not understand, raising and propagating falsehoods and calumnies of those men they look up to with envy, and on whose fall and ruin they wish to rise, intend to reduce all things to a state of tumult, discord and confusion.

And in pursuance of those evil purposes and practices, they have imposed on the understanding of some, corrupted the principles of others, and distracted the minds of many, who under the influence of this delusion, have been tempted to act a part that may prove, and that has already proved, extremely prejudicial to the Province, and as it may be, fatal to themselves; bringing into real danger, and in many instances destroying, that liberty and property we all hold sacred, and which they vainly and impiously boast of defending at the expense of their blood and treasure.

And, as it appears to us that many of this town seem to be led aside by strange opinions, and are prevented coming to such prudent votes and resolutions as might be for the general good and the advantage of this town in particular, agreeably to the request of the petitioners for this meeting.

And as the town has refused to dismiss the persons styling themselves the Committee of Correspondence for the town, and has also refused so much as to call on them to render an account of their past dark and pernicious proceedings:

We therefore, whose names are hereunto Subscribed, do each of us declare and protest, it is our firm opinion, that the Committees of Correspondence in the several towns of this Province, being creatures of modern invention, and constituted as they be, are a legal grievance, having no legal foundation, contrived by a junto to serve particular designs and purposes of their own, and that they as they have been and are now managed in this town, are a nuisance. And we fear, it is in a great measure owing to the baneful influence of such committees, that the teas of immense value, lately belonging to the East India Company, were, not long since, scandalously destroyed in Boston, and that many other enormous acts of violence and opression have been perpetrated, whereby the lives of many honest worthy persons have been endangered and their property destroyed.

It is by these committees also, that papers have been lately published, and are now circulating through the Province, inviting and wickedly tempting all persons to join them, fully implying, if not expressly denouncing the destruction of all that refuse to subscribe those unlawful combinations, tending directly to sedition, civil war and rebellion.

These and all such enormities, we detest and abhor, and the authors of them we esteem enemies to our King and country, violators of all law and civil liberty, the malevolent disturbers of the peace of society, subverters of the established constitution, and enemies of mankind."

The publication of this protest, together with the knowledge of the fact that it had been entered upon the records of the town, excited the indignation of the whigs to the utmost degree. Upon the petition of Joshua Bigelow and others, a warrant was issued on the 29th of July calling a meeting the 22d of August. From this warrant the following extract is made:]

[2d article:] to Consider of and act on the Petition of mr Joshua Bigelow and fourteen others, as by S^{d} Petition reference had thereunto shall appear. Desireing the town to take under their Consideration the Protest of mr William Elder and John Curtis and others, lately Published in the massachusetts Gazette, As a True Copy of the record, made in the Book of Records; for this Town, and attested by the Town Clerk, and whereas there is, in the S^{d} Published Protest an odium cast upon the Town, as acting arbitarily, which we think is false, without all votes are Deem^{d} arbitary, that are carried by a great majority. And also in Said Protest, it is asserted that the Town has refused to Dismiss, the Persons Stilling themselves the comittee of correspondence, for the Town And Also refused, so much, as to call on them to render, an account, of their past, Dark, and Pernicious proceeding Hereby falsely, and maliciously Slandering, the Town; as tho they Tollerated, Sundry Persons, in this Town to Stile themselves a committee of Corrispondence for the Town and to assume that character, And to act darkly and Perniciously with impunity, Whereas the Town, hath never been requested, to Dismiss any Person, or Persons as aforesaid neither hath there been any Person or Persons in this Town So Stileing themselves or assuming the character and acting as aforesaid Also in the Protest aforesaid, it is Declared that Committees of Correspondence in the Several Towns, of this Province are a grievance. and that they as they have been and now are managed, in this Town are a Nuisance, hereby Inviduously and

falsely Slandering the charactors of those very worthy Gent, of which our committee is Composed. And also the charactor of the whole Town as Tollerating a Nuisance. and whereas by the S[d] Protest it appears that the Town Clerk, of this Town hath recorded it upon the Town Book of records Notwithstanding the many falsehoods and Slanders, therein contained & expresed against the Town and as we apprehend in violation of the Trust Reposed in him (if not his oath) For Remedy whereof, we think it would be proper and very much for the Safety of the Town to have the present, Town Clerk brought to give an account to the Town, by what athority he has Recorded in the Town Book of Records the Before mentioned falsehood and Slanders, against the Town and if he cannot vindicate himself to the Satisfaction of the Town; that he be Shown Such marks: of the Towns Disapprobation of his Conduct, as they Shall think proper; and the Said recorded Protest Erased from the Town Book.

And whereas the Port, and harbor, of Boston, is Blocked up: and the Trade and Commerce of that Town obstructed, and in a great measure annihilated and Distroyed; by a late act, or acts, of the British Parliament whereby we think many of the worthy Inhabitants, are berieved, of the means, of their Support; and are proper objects of our Charity. We Desire, that the Town, would come into some method; to make Some charitable Collections for the relief of the Distressed Poor of that Town, And also for the Town, to take under their Consideration, a late act of the British Parliament, (which we have been informed of by the Publick Prints and other ways) to Deprive us of Origonating; and holding Town meeting, in our Corporate Capacity, agreeable, to the Charter of this Province and antient and usual Custom——

And also, for the Town, to take any other act, or acts, of the British Parliament; under their Consideration, and to pass such votes & Resolves Relative thereunto as the Town shall think proper

And also for the Town, to chuse a committee if they think best, to wait on Such Persons in this Town as have not already Signed the agreement, or Covenant; for the Non Consumption of British Goods, that they may have an Opportunity of Signing the Same,

that being as we think, a lawfull, and Peaceble, measure which may have a Tendancy to obtain the Desired end, (viz a repeal of the act aforesaid) and prevent all the acts of violence which we abhor and Detest——

The Committee appointed by the Town to take under consideration the protest of William Elder, John Curtis and others and the Town Clerk for Recording the Same Reported as Follows (viz)

Having taken under our consideration the protestation of mr William Elder, John Curtis and other inhabitants of Worcester published in the massachusetts Gazette of June 30th 1774 beg leave to offer the following——

That whareas the publication aforesaid was made as a protest of the Signers of it against the proceedings of the Town of Worcester, and contains in it a number of groundless reflections and aspertions against the inhabitants of the Town (Viz) It seems to be implied in the derection to the Printer, published at the front of the protest that the Singnors were the only persons in the Town that was freinds to truth Peace and Order and that they only was the Persons that had any Just apprehensions of the Ill Consequences arising by mobs and Riots &c. and that all the Rest of the Inhabitants acted Irregular and arbitrarily (notwithstanding the matters in Said meeting was fairly Debated) and that they was so destitute of Understanding as to be Led astray by evil minded Persons who was Endeavouring to reduce all things to a State of Disorder and Confusion hereby making themselves the Sole Judges of what is Rule and order and what is not: proceed to Stigmatize the Inhabitants as holding To Such bad opinions as to Prevent the Towns acting Prudently and for ye Generall Good——and it is also Implyed in the Publication aforesaid that this Town allows a Number of Persons in it To assume the Character of a Comittee of Correspondence for ye Town and To act Darkly and Perniciously with Impunity Contrary to Rule and Good Order: and in Violation of the Truth after with Unparralled arrogance Representing themselves as ye only friends to it asserts that the Town has Refused to Dismiss the Persons Stileing themselves a Comittee of Correspondence for ye Town when Setting aside the Inconsistency of the Towns Dismissing persons who had arrogated the Character

of a Comittee and Consequently not Chose by the Town they well knew that y^e^ Town has not been Requested either to Dismiss Persons Stileing themselves a Comittee or those Gentlemen so denominated by the Town neither was their an article in y^e^ Warrant for Calling Said Meeting to Dismiss any persons whatever from office nor so much as proposed in y^e^ meeting

there is also a malignity Cast upon Comittees of Correspondence in Generall through the Continent and in particular against the Comittee Chosen by this Town without any Reason assigned for y^e^ Same but this Opinion of the Protesters too Slender a foundation to asperce the Charactors of the Town officers upon and have endeavoured to Insinuate into the minds of the Publick that the Men of which Comittees of Correspondence are Composed thro the Province are a Parcell of unprincipolled knaves who are endeavouring to Destroy the Lives and Propertys of the Peaceable and well Disposed and also alledging that it is by these Comittees that Papers have been Lately Published and wickedly tempting all Persons To Sign them which they Call unlawfull Combination Tinding directly to Civil War and Rebellion This Town knows of no Such Paper if it be the Non Consumption agreement enterd and Entering into thro this and the Neighbouring Provinces that is pointed at we take it upon us to Say that we much approve of y^e^ Same that if Strictly adhered to will Save our money promote Industry frugallity and our own manufactories and tend directly to Prevent Civill war and Rebellion——and after offering their opinion of mobs Riots tumults Disorders and y^e^ Proceedings of this Town do Cruelly and with Such Temerity as shews them to be Destitute of that Humanity and Christian Charity which we all in Duty owe one to the other Brand all that dont Joyn with them with the Characters of Enemies of our King and Country violators of all Law and Civill Liberty the malevolent Disturbers of the Society Subvertors of the Established Constitution and Enemies to mankind and as it appears by the Said Publication that the Said Publication that is Recorded upon y^e^ Town Book not withstanding the many aspertions and falshoods therein Contained against the People of this Town without the Liberty or Knowledge of the Town Therefore

Voted That the Town Clerk do in Presence of the Town obliterate erase or otherwise Deface the Said Recorded Protest and all y^e^ Names thereto Subscribed So that it may become utterly Illegible and Unintelligeable[1]

Voted That the method taken by the Leaders in Protisting and Procuring a Very Considerable Number to Sign to the Protest that was not Voters in y^e^ Town we think was a Peice of Low Cunning to Deceive the Publick and make their party appear more Numerous and formidible than it was in Reallity

Voted that the Signers of Said Protest on Some of whom the Town have Conferred many favours and Consequently might Expect their Kindest and best Services be Deemed unworthy of holding any Town office of Profit or Honour untill they have made Satisfaction for their offence to the acceptance of the Town which ought to be made as Publick as their Protest was

Voted that it is highly needful that those of the Signers who have not made Satisfaction as aforesaid Should be known in futer it is therefore necessary that their Names Should be hear inserted as follows (Viz)

James Putnam
W^m^ Paine

[1] The requirements of this vote were complied with by the town clerk, who in open meeting with pen and finger dipped in ink, obliterated the obnoxious entry, so that it is "utterly illegible and unintelligeable." A fac-simile in heliotype of one page of the defaced record was published with the account of the centennial celebration at Worcester in 1876.

others filled with falshood and Reflections against this Town we have Just Reason to fear you was actuated in the matter by Unjustifyable motives and at this time Exhort you To be more Circumspect in y^e^ Execution of your office and Never give this Town the Like Trouble of Calling a Town Meeting again on Such an Occasion The Town wishes To See your behaviour Such as may Restore you to their former Good Opinion of you

Whereas the Comittee of Correspondence for this Town willingly Laid all their Procedings before the Town when Requested and it thereby appears Notwithstanding the Ungenerous abuse heaped on them by y^e^ Protestors that they have acted with diligince Care and Caution therefore Voted that the Thanks of this Town be and are hereby given to y^e^ Comittee of Correspondence for their Circumspection and that they are directed To go on with their Vigilance in Corresponding with y^e^ other Comittees in y^e^ Severall Towns in this Province—also Voted that the beforegoing Transactions and Proceedings be Recorded in y^e^ Town Book of Records and that an attested Copy be given to the Comittee of Correspondence for them to transmitt to y^e^ Comittee of Correspondence for y^e^ Town of Boston To be Published in the Massachusetts Gazette and also in y^e^ Massachusetts Spy

[1] Report of the committee to settle accounts with the town treasurer.

We the Subscribers being Chosen a Committee to Draw up proper Instructions for the Collectors of taxes for this Town respecting publick moneys and Lay the same before the Town beg leave to Report as follows (Viz)

That as all publick monies, ever ought to be appropriated for the Greatest publick benefit and our late Provincial Congress have recommended that the Inhabitants of every Town & district within this Province do oblige and compell their respective constables and Collectors to comply with and execute their Resolve passed in Congress held in Cambridge October 28: 1774 making Henry Gardner Esq^{r} of Stow Reciver General &c. The above Report being Laid before the Town and the Question being put whither the Town would accept the same and it passed in the affirmative

The Comittee appointed to Draw up Instructions to m^{r} Timothy Bigelow Chosen to Represent this Town in a Provincial Congress to be Holden at Cambridge made Report as follows

To m^{r} Timothy Bigelow S^{r}. at this Day of difficulty and tryal in America in General, and in this Province in perticular, by means of Several acts of the British Parliment, whereby we are deprived of the advantage of civil government, agreeable to the Rights, Liberties, Priviledges of Englishmen, the Governor of the Province invested with a power of making & unmaking many of our officers in such a maner as Renders our executive & Courts dangerous to the lives, liberties, and properties of all such as shall oppose the

establishment of a Dispotick Government in this Province. and his being made independent of the people of this Province for his Sallery we apprehend has such influence upon his Conduct that we have Just ground to fear he will pay more regard to the Instructions that he may recive from the British ministry than to the Wellfare of this Province or the English Constitution of Government

He hath allready (we think wantonly) dissolved one General assembly of this Province, and issued writs for calling another, and in an unpreceden[t]ed maner dissolved said writ before the day on which said Court was to meet; and no other like to be called that we know off. By these means we being deprived of the advantage of such a General Court or assembly as the Charter of this Province intitles us to, are constrained instead thereof to hold a Provincial Congress agreeable to the Recommendation of our Late Congress held at Cambridge. Therefore we have made Choice of you to represent us in the Said Congress at this critical and important crissis of our publick affairs, when the fate of millions depend, upon our wise cool and prudent conduct; you we make no doubt will be duly Sensible of the great & important trust reposed in you by us your constituents. the uncertainty of events may cause many matters to come under your consideration which will require your utmost fortitude, which we cannot give you perticular instructions upon at this time, but the following we give you as the rule of your conduct Respecting the matters hereafter mentioned (Viz)

First That you endeavour that if the Provincial Congress should meet at Cambridge agreeable to the Recomendation of our late Congress that they immediately adjourn from Cambridge to some Town in the Country at a greater distance from Boston

Second That you are very Carefull in Disposing of the publick monies especially that you do not give your Consent to any Extravagant grants if any such should be proposed to be made to any person or persons for their Services

Third That you Endeavour that the members Chosen by our late Provincial Congress to Sitt in a Continentall Congress to be

Holden at Philadelphia in may next may be instructed as early in their Sessions as possable to obtain the advice of the members thereof what measures are the most proper for this Province to adopt respecting civil Government, which at this day we are deprived off.

And we determine to rest quietly in this Situation however perplexing agreable to the recomendation of our late Continentall Congress untill the opperations of their petition to his majesty be Known. Excepting the Commencment of hostilities against us should require the adopting a form of Civil Government for the defence of our lives and properties and under such exigency you are to conduct your Self accordingly and endeavour the best form possable be adopted for the Support of Good order and the liberties of the people which we think must and shall make every Servant of the publick Dependant upon the Suffrages of the people for their authority

The Committee Chosen by the Town at their last meeting to draw up proper instructions to be given to M^r. David Bancroft Respecting his Conduct in the Provincial Congress Returned the following and the Town by a unanimous vote accepted the same which is as follows.

To M^r David Bancroft S^r. The Town of Worcester having Chosen you their Delegate to Represent them in the Provincial Congress to be Convened and held at Watertown upon the 31^st Day of may Instant and so de die in diem during their Session & Sessions for six months from the said 31^st day of may and no longer. And notwithstanding the high Opinion we have of your integrity, wisdom, and fortitude, think it our Duty to give you our perticular instructions Relative to some matters that may Come under your Consideration, and when anything Extraordinary of a publick nature Occurs that Concerns your duty as our Representative, we injoyn it upon you that you take our further perticular instructions upon the matter if in your power. Especially at this time, when a Corrupt Despotick ministry with a wink or a nod rules both the King and Parliment of Great Britain with such absolute sway that they are but a meer nose of Wax turned and moulded any, and every way to answer Despotick purposes, Overthrow the English Constitution of Government and plunder the americans of both liberty & Property.

From hence our Charter Nullified our Governor made Despotick and independant of the people, our Judges of our Court Dependant upon the King for both their place & pay, Jurors to be packed by a dependant Sherrif, a law purporting for the Kings officers if they please to murder the Kings subjects in this Province with impunity, the port and harbour of Boston blocked up and our trade stoped untill we shall pay for tea we know not how much, and destroyed by we know not who, and if we Comply and pay for said Tea then all the wharves, Docks, Quays, landing places, and Shores within the port and harbour of Boston are forfieted into the hands, and are to be at the Disposal of his present majestie and his successors for ever, the Town of Boston reduced to millatary goverment, the Governor of the Province sending out troops

into the Country frequently who have Robed and plundered the publick stores maggazines &c, and Destroyed private property, and to compleat the secene have murdered and butchered a great number of our peaceable quiet inhabitants and loyall subjects of his majesty. Our legislative authority according to Charter Destroyed, and we Drove to the necessity instead thereof to hold a Congress and as the spiritual ruin was designed against us as well as temporal, the Romish Religion is established in the largest Goverment upon the Continent Civil Goverment the former security of life and property we are deprived off and under the Disagreeable necessity of taking up armes and Defending ourselves against Britains who ought to Joyn with us in the defence of our lives rights, liberties, and the English Constitution, the only safe bassis of his majestys throne.

These are but a part of the acts of that legislature that Claims a right to make laws binding upon us in all Cases whatever. Under these accumulated oppressions and Tyrannical acts of the British Parliment, it behoves you to steer clear of those Rocks that have dashed the constitutional liberties of our fellow subjects in Great Britain & threaten us in america. The millions upon millions of the national debt hath arisen (as we think not by misfortune but) by exorbitant grants to placemen and pensioners.

You are therefore in all Grants of the Publick money to be especially Carefull that no more is given to any person for his services than an adequate pay for the same, & that no person be allowed to live in luxury and idleness or become oppulently rich at the publick expense. there is nothing in a well ordered Goverment that requires it; and in whatever Community it is allowed they are raising such another tribe of Tyrants to destroy themselves as we are now Justly fighting against, this nothing for its illustration but to take a Retrospective view of the Conduct of some persons of this Town as well as other parts of the Province. God grant that this Country may never produce any more such ingrates.

The difficulties we labor under for want of an Established civil Goverment necessitates us to Injoyn it upon you that you endeavor that advice of the Grand Continental Congress be obtained upon

that matter, and that we have such a form of Goverment Established as that every officer in it be dependant upon the Suffrages of the people for their place & pay. And as General Gage Commander in chief of his majestys forces in america hath since he has been in Boston sent out his troops into the Country who have robed plundered and murdered a number of his majestys loyal subjects, and by fraud disarmed the inhabitants of Boston and by breach of solemn Contract detains some of them prisoners in Boston and been guilty of such conduct as is not only unchristian and Derogatory to the Character of a good Soldier, but would be a disgrace to a savage.

You are therefore as far as is Consistent with the nature of your office to give all the aid and assistance in your power towards subjecting him and the army under his Command and Recovering the property both publick & private that they have unjustly taken away, and that he and the murderers under his Command may be brought to Condign punnishment, and that the Estates of our Domestick Enemies may be secured for the Publick use. You are also to Endeavor that proper measures be taken to supply this Collony with arms ammunition and all warlike stores necessary for defence. and to take proper measures for keeping up harmoney and Union with all our Sister Collonies.

The Committee Chosen at the last meeting to draw up an answer to the General Court Respecting the precinct lately Erected out of Worcester, Leicester, &c &c Reported to the Town, an answer to the General Court which Report was accepted and is as follows (viz) David Bigelow moderr

The Town of Worcester Having been served with a Coppy of the Petition of William Phips & Charles Richardson praying "the present members of the Precinct lately Erected out of Worcester, Leicester, Oxford, & Sutton may be incorporated into a Town, according to a plan Exhibited with said petition &c. and the Honble General assemblys Resolve Thereon, of the 24th day of Octr. last, Requireing the said Towns to shew Cause, if any they have, on the third Wednesday of the next Session of the Sd Court why the prayer of Sd petition should not be Granted"

The Town of Worcester, in answer to Sd Petition and Order of Court, beg leave to say, that they have not been served with a plan of said Town Exhibited with said Petition to the Court, and therefore are not in a Capacity to offer Reasons against, or to comply with it untill they know how far it Extends. But if the said plan Does not include any of those persons nor their Estates which belong to the Town of Worcester, and which were Excepted from being set off to said precinct when it was first Erected. We have no objections to their being made a Distinct Town. But if said plann includes those persons and their Estates who were first Exempted from belonging to said precinct, and are still unwilling to be set off to said Town. We beg leave to say we think it would be Inconsistent to include a Number of persons & their Estates into the said New Town and still Continue them to belong to the Town of Worcester, and to include them in the plann aforesaid & set them off against their Consent & the Consent of this Town, is departing from the principles upon which the said precinct was at first Erected, and will subject the said persons to an inconvenience that they had a right to Expect an Exemption from by the act of

the General assembly & as the said persons who were first Exempted from belonging to S[d] Precinct and who are still unwilling to be set off to S[d] new Town and their Estates all lay upon the side of S[d] new Town next to Worcester, this Town are humbly of Opinion that a line may be run between the Town of Worcester & the S[d] new Town Leaving the S[d] persons & their Estates to the Town of Worcester without any Inconveniency to Either of the said Towns. which if Complied with the Town of Worcester are Content

We the Subscribers appointed in November last a Committee to enquire into the appropriation that has been made of the Several Monies that have at diverse times Come to the hands of the Select men, & Several Committees &c for three years Last past, & to enquire of all persons that have paid or Received any of Said Monies—to Enquire of the Select men Relative to their Disposal of the Salt allowed to this Town by the State and to enquire into the State of the towns powder and dispose of the same Have attended that Service & beg leave to Report as follows, namely

That your Committee after Diligent Enquiry find that since the Beginning of November Anno Domini 1776 the Sum of £605 - 4 has Come to the hands of Mr. Nathan perry One of the Select men and Town Treasurer, & to the Hands of the Committee of Correspondence as appears to us by Receipts & other Sufficient vouchers —That the money which Came to the Hands of the Committee of Correspondence &c has been paid to the Town Treasurer

What other Sums of Public money have within the limits of the time for our Enquiry been paid To the Select men & Town Treasurer is to your Committee unknown as we have had no information in this Respect, though we have often Requested it, and whereas your Committee have often Desired the Select men & town treasurer to give them an explicit account in what manner said moneys have been appropriated, in order that they (your Committee) might be enabled to give Satisfactory information to the Town in this behalf, yet such account has always been Refused, So that your Committee apprehend that the Selectmen & Town Treasurer deem them selves not accountable to your committee or to the Town;

and that there is a considerable Quantity of money Raised by fines and otherwise, still in the hands of the Town Treasurer & Selectmen, as by the Best Intelligence that can be obtained, Sixteen Soldiers, or more in the Continental Service for this Town, have not as yet Received any of the Towns money, exclusive of those eight men last raised by a Draft for that purpose

That the Selectmen Engrossed to them selves the Business of Transporting Said Salt from Boston & have Charged Such Sums Per Bush as must amount to nearly 130 Dollars above the original Cost of Said Salt—That so far as your Committee can discover said salt was distributed to a part of the Inhabitants of the Town in very unequal and undue Proportions, That numbers of People living without the limits of the Town received large Portions & that numbers of the Inhabitants equally or more in need of Salt, & equally entitled to a Share, have Received none—The Select men having never given any Sufficient public notice of their having procured Said Salt—That two of those who undertook to distribute Said Salt have never Rendered any account of their Doings to your Committee & that the Distribution made by those who have Rendered an account is Contrary to the meaning & Spirit of the Resolve. & to the concurrent Practice of all the Towns whose distributions of Public Salt have come to the knowledge of your Committee upon Diligent Enquiry, And your Committee hereupon Submit it to the Consideration of the Town, whether they will pass an Order that some method Shall be pursued to enable those who have been deprived of their Share of Said Salt, to recover their Just Proportion agreeable to the Intention of the General Court in allowing the Same

Voted to accept of the petition that the Committee have drawed up & that the Said petition be Recorded in the Town Book The Petition is as Follows

Commonwealth }
of Massachusetts } To the Honorable the Senate and the House of Representatives of the Commonwealth afores^{d}. in General Court assembled

The Petition of the Inhabitants of the Town of Worcester Humbly Shews

That for Several years last past your petitioners have been called upon by Government for larger Sums of money & greater numbers of Soldiers than their Just proportion which they can make evidently to appear if your Honors would indulge them with an opportunity therefor your petitioners have heretofore applied to your Honors for relief but are informed that their omission in not returning a valuation in the year 1778 bars them from a possibility

of redress a curcumstance so unfortunate to your petitioners as impels them as well to vindicate themselves from any supposed contumacy towards Government as to open a way to their relief, to State that matter in its Just light. The Town knew nothing of of the omission of the assessors with respect to the valuation before mentioned until a disproportionate assessment led them to enquire into the cause of your petitioners afterwards called upon the assessors whose duty it was to have returned the valuation to declare their motives for the Supposed neglect, & were by them informed that the orders for taking a new valuation did not reach them in season your petitioners would beg leave to observe that admitting that the assessors were culpable, as it was without the consent or even Knowledge of the Town yet in their apprehension they have a full claim to be considered & relieved in the premises, your petitioners therefore again most earnestly pray your Honors to take their case into your wise consideration & as they wish not to elude the burthen of the day, that a full enquiry may be made as to the Justice of their complaint & that they may experience that equity which they apprehend their case intitles them to both with respect to future taxes & those that have been made since the last general valuation & as in duty bound your petitioners Shall ever pray

At a Legal meeting of the Freeholders & other Inhabitants of the Town of Worcester qualified to Vote in Town meeting held on

the 25th of January, A. D. 1782 by adjournment From the 21st of the Same month

Whereas the Said Town at their meeting on the 21st Day of January did disapprove of a Late act of this Commonwealth laying Excise on Wine Rum &c. and on Wheel carriages and did then Vote to enstruct Samuel Curtis Esqr. our Representative to use his utmost Endeavours to have Said act repealed — The Town now taking the matter again into consideration do give the following Reasons why Said act ought to be Repealed

First It is an indirect method of levying moneys as those who pay said Duties cannot know what Sum they pay which is contrary to the Geneus of a Free people

2d that it multiplies Oathes and Subjects a great Number of Persons to be Sworn in matters wherein they are deeply interested & Consequently instead of Suppressing immorality has a contrary Tendency

3d That if it is necessary to lay Duties for the Support of Government & Suppressing of Luxury & Extravagance the Said Duties ought to be laid on Such articles only as are merely Luxurious and not on Some of those mentioned in Said act Spiritous Liquers being absolutely necessary for our Seefearing Brethren coasting along our Shores in Boats & Lighters at all Seasons of the year to Supply the market with wood Lumber & Fish—also for the Farmer whose Fatigue is almost unsupportable in hay Time & harvest and other Seasons of the year—& for the New Beginners in bringing forward new Townships where they have nothing to drink but water and perhaps are exposed to more Hardships than any other persons nor on Bohea Tea which in populous Places & in many Places in the Country is Substituted by many Poor People for their Support & Sustinance in the Room of milk which is not to be had and they find it to be a cheap Diet nor on comon Chaise & other carriages Such as are kept in the country for the necessary conveyances of Familys to meetings & the useing them very often saves the keeping of a horse extraordinary and Enabbles the Farmer to keep more cows or sheep which are more Profitable—and all carriages being manufactured among our Selves laying a Duty upon

them has a Tendency to discourage all those mechanicks employed in making them

4thly The mode pointed out in Said act for collecting Said Dutys is much more expensive than necessary however Small the Commissions allowed the Collector may appear—For if the collector can afford to Ride into every Town in the county & collect the Duties for three pr cent the comon collector of Taxes in each Town can afford to collect the Same in his own Town for one pr cent & convey the moneys to the publick Treasury with his other Publick money

5thly That all consumers of Spiritous Liquers at Taverns will pay about Eight Times as much as the Duties amount to for it is well known that the Tavern keeper Sells his mixt Liquers for two pence more in a mugg than before the excise was laid when in fact the Duties on Each mugg does not amount to more than a farthing & so in proportion on other Liquers

6thly that all Persons living upon the Borders of this Government will purchase Liquers for their own consumption of the Neighboring Governments & thereby avoid paying any of Said Dutys

7thly the Said act for laying a Duty on Tea exempts all persons from paying a Duty who buys at one Time Fifty pounds or more of bohea tea or Twenty Five pounds of other India Tea which appears to be calculated to lay a Tax upon the poor & exempt the Rich

8thly The consumer of Spiritous Liquers are charged by the Retailor & Tavern keeper with the whole of the excise mentioned in Said act & they are obliged to pay the Same when at the Same Time the Retailor &c is allowed Ten pr cent a very Extraordinary Sum for Leakage waste &c which with three pr cent allowed the collector amounts to nearly thirteen pr cent out of the Duties intended to be raised by Said act as also a further allowance is to be made the Retailor &c for as much more as he Shall See cause to Swear that he may have lost by extraordinary leakage or other casualties

9thly there is no check upon the collectors accounts or anything to prove that the whole money he Shall collect is contained in the account he Shall exhibit to the Receiver General when by Former Excise acts, the Collector when he received any Duties was obliged

to give two Receipts of the Same Tenor & Date one of which was to be lodged with the Clerk of the Sessions & the Clerk was obliged to transmitt the Same or Copies thereof to the Treasurer in order to compare with the accounts of the Collector

lastly The Said act is attended with many Difficulties & has a Direct Tendency to Embarras & obstruct Trade and it is the opinion of this Town if continued will create great uneasiness among the good people of this commonwealth and not answer the Designs of Government in passing the Same the Town Clerk is therefore hereby directed to furnish Samuel Curtis Esq^{r}. our Representative with a copy of our Vote of the 21st. Instant & the foregoing Reasons and the Said Samuel Curtis is Directed to use his Endeavours not only to cause Said act to be repealed but to prevent in future any Excise or Dutys being laid upon the necessarys of Life

Voted that M^{r}. Thomas be Desired to Print the foregoing proceding in his Next paper

Voted that this meeting be dissolved & it was dissolved accordingly A True Entry attest Daniel Goulding Town Clerk

Worcester June 8th. A, D, 1782

To Samuel Curtis Esqr.

Sir we Reposing Special Trust and Confidence in your Patriotism, Conduct and fidelity have Elected you to Represent us in the Grèat and General Court the Present year notwithstanding our Reliance on your Wisdom and integrity, think it necessary to instruct you Relative to some Particular maters of Grevance which we think we labour under–Viz

1st. that the Receaver General of this Extensive Commonwealth Should be a Justice of the pleas in the county of middlesex by which he is Rendered unable to attend his office as treasurer of the Commonwealth during the Time he attends the Courts in Said County by which many persons have been and others no dout will be put to Considerable expence besides loss of Time and Dissapointment who have busness with him as Treasurer

2ly as there is a Recomendation of Congress that Such Officers as have been Deranged and not in actual Service have half pay during life if Said Recommendation has or Should take Place we look upon it as a great Greivance

3dly That the members of the General Court when acting as Committees of the Same have large wages over and above their pay as Representatives is a Greivance which we think we Justly Complain of

4thly That Representatives having Nine Shillings pr. Day Considering the Scarcity of money and the difficulty of obtaining thereof being allmost Double what they formerly had when money was much Plentier and Easier to be had we think a Greivance

[1]That there has not been a Settlement with the Treasurer of this Commonwealth & Publick boards Commissaries Commissioners and indeveduals who have been intrusted with the expenditure of our publick moneys which if Done and an account made out by the Honorable General Court and Transmitted to the Several

---

[1] Marginal note: "This article not to have been Recorded as Parte of the instructions."

Towns in this Commonwealth annually giving a Just account of the State of the Treasury would greatly Eas the minds of many of your Constituants

5thly We think it a great greevance that there has not been a general Settlement with the Treasurer of this Commonwealth and with all Others who have been intrusted with the expenditure of publick monies and have not accounted for the Same

6thly We think it a grievance that the State of the Treasury is not known to the inhabitants of this Commonwealth and would have you use your influence that in future the General Court transmit to every Town annually an account of the expenditure of all publick moneys

7thly as the Siting of the General Court in the Town of Boston is attended with many inconveniances we think Said Courts Siting in Said Town a Grievance

8thly that the Sitting of the Court of Common pleas and General Sesions of the Peice at the Same time much interfear with each Other by which means the County is put to the coast of paying many Justices many Days when much less Time would answer the purpose as well

9thly It has been Represented that there has been large Grants of land made to alexander Shepherd and Others laying in the old Province of main [that] there has not been a more Strict inquiry made whether their Claims does not far exceed their origional grants is Complained of

These Sir are our Sentiments as maters of Grievance which we instruct you to use your utmost exersions to Guard against and obtain Redress as becomes an Indevedual member of the General assembly

A true Entry Attest William. G. Maccarty Town Cler

At a meeting of the Freeholders & other Inhabitants of the Town of Worcester at the publick meeting house in S[d] Town, on monday the 12[th]. Day of may a. D. 1783. and cont. by adjournment to monday the 19[th] of the same may & then met

Upon a motion made & Seconded, & the question put Voted that the Report of the Committee, appointed at the opening of this meeting to prepare an answer to a Letter from the Committee of Correspondence &c of the Town of Boston, & to prepare Instructions for the Representative for this Town, be now read—

Voted, that the S[d]. Report be read & acted on paragraph by paragraph

The Report being read & passed upon, agreeable to the last Resolve, & each & every paragraph being approv'd—It was moved & seconded to see if The Town approve & accept of the Report of their Committee, at large—it passed in the affirmative—The Report is as follows—

That this Town, with an equal & sacred regard to treaties of peace, and of *alliance;* to the Resolves of Congress, and the solemn acts of this Commonwealth, passed from time to time, for its preservation, safety & defence ; & especially, to those great & important principles of liberty and a free Government, for which they have been Struggling at the resque of their lives, will continue with spirit & firmness, their most vigorous efforts, to render glorious, & Secure from danger, interruption, or diminution, the ends of their past exertions,—*Peace*, Liberty, and *Happiness*

2[dly]. That this Town consider every Country, in times of invasion, as having equally a right, to the assistance, the personal services, & the property of all its subjects, in opposing the assailants—

That this Country more than eight years since, was invaded, & has been scourged by a War, which for the purpose of reducing it to the servile subjection of foreign domination, has been, by sea & by land, wasting, & by every species of barbarity, distressing its innocent Inhabitants.—a war that has desolated & burned whole towns, & render'd wretched, & turned out thousands of virtuous americans, destitute, despoiled, & unprovided for by the treaty of Peace, which leaves them dependant on the graitude & generosity of their Country—a war promoted, encouraged, & invited by those, who the moment the bloody banners were displayed, abandoned their native land, turned parricides & conspired to involve their country in ruin, tumult, & in blood.

3^{dly} That such traitorous conduct, upon every principle of policy & Justice, in all ages, & in all countries, would in the opinion of this town, operate a forfeiture of the Conspirator's civil & political relation to their injured & betray'd Country; cut them off, forever from a standing therein, render them Enemies & aliens, and Justify those necessary laws, and that general voice of the people, by which they have been thus declared.

4^{thly} That considering, while the sword was slumbering in its Scabbard, when this country was in the hour of quiet, & at peace with the world, only pleading and petitioning for its rights, for a free Government; the sentiments of the absentees, their principles, their language, & their feelings were fixedly opposed to those rights, and to that freedom,—They then prefering, & to evince the sincerity of that preference, engaged to resque their all, for its possible attainment,—a Government totally inconsistant with the principles of the one we have established, and for the destruction of which they have been waging a cruel war; That therefore this town cannot conceive of it to be their duty, or their Interest, ever to provide for the return of such Ingrates, to naturalize them, or admit them to the priviledges & immunities of citizens.

5^{thly} That, whereas the said absentees & conspirators, have, at all times, uniformly by their representations, addresses, and avowed principles, considered the subjects of these states, of our great & illustrious ally, and the treaty of alliance, amity & commerce, as

the proper subjects of abuse, calumny, & reproach—The former as the deluded tools of a party, spurred on to treason & Rebellion ; The second as the cowardly machines of a Monarch, perfidiously plotting the ruin of the former ; and the latter as originating from the worst of motives, delusive, treacherous, artful, insincere, & not to be adhered to, and have even attempted to seduce the Subjects of these States to violate their *faith*, & those sacred treaties :— That therefore, in the opinion of this town, to admit persons of such principles, & such practices, to incorporate with and reside among us, would betray the want of a due regard to a generous friend, who has been fighting & bleeding by our side, endanger the treaty, and injure our national characters.

6^{thly}. That whereas persons of the above description have been of the opinion, which they have been assiduous to *propagate*, that, these States could find happiness, or protection, no where but in a re-union with the Kingdom of Great Britain ;—That left to themselves, they would become the sport of each other—break to pieces & crumble into ruin ;—That no calamity was more to be deprecated, *for our own sakes*, than Independance established, and no blessing more earnestly to be sought for than Independance destroyed ;—and whereas, when by a change of British Councels, & British measures, there was a prospect of peace, they reprobated that change, & solicited, for the purpose above, the continued utmost exertions of British power, and British resources, and even after the commencement of the pacific treaty, with malicious intentions, equally hostile to both Countries, dared to represent america, as but the proper subject of an easy conquest :—that therefore, in the opinion of this town, our Independance must ever be in danger of annoyance from such persons, who can never have our *confidence*, friendship or society.

7^{thly} That the plea, for the return of the absentees, of their becoming good subjects, encreasing our numbers, & our strength, is in the opinion of this Town, *groundless & fallacious ;* as it is improbable that persons who have thus acted, that are thus principled, and thus scituated, would, without any new reason, light or argument, alter their conduct, and at once reject the principles

they have embraced, & embrace those they have rejected, endeavor to support that Government they have been struggling to destroy, cultivate that harmony they have been industrious to prevent,–prevent that discord they have been assiduous to create–*quell those riots & unlawful assemblys* which but of late were the foundation of their darling hope—and endeavour to strengthen that friendship and alliance, which they have labour'd to weaken, & lied to asperse, and by a conduct the reverse of their past, become useful & good

8thly That agreeable to the treaty of peace, this town wishes for no recollection of past disputes with Great Britain, no repettition of past injuries ; but the seeds of discord being excluded, that such a beneficial & satisfactory intercourse may be established between the two Countries, as to promise & secure to both perpetual peace & harmony—which would be extremely difficult, were those persons to reside among us, whom this country consider as the occasion of interrupting that intercourse formerly, & the cause of all their sufferings ; especially as these *wretched beings*, have already began a quarrel with that peace, & those who made it, which terminates a long, bloody & unnatural war.

9thly That therefore in the opinion of this town, it would be extremely dangerous to the peace, the happiness, the liberties, the interest, and safety of these states, to suffer persons of the above description to become the subjects of, & to reside in this Government ;—That it would be not only dangerous, but inconsistant with Justice, policy, our past laws, the publick faith, & the principles of a free & independant State, to admit them ourselves, or to have them forced upon us without our consent.

10thly That in the opinion of this Town, this Commonwealth ought with the utmost caution, to *naturalize*, or in any other way admit as subjects, a common Enemy, a sett of people, who have been by the united voice of this Continent, declared *outlaws*, exiles, aliens, and Enemies, dangerous to political being & happiness.

11thly That while there are Thousands, of the innocent, peaceable & defenceless Inhabitants of these states. whose property has been destroyed, & taken from them in the course of the war, for whom no

provision is made, to whom there is no *restitution of estates*, no compensation for losses—That it would be unreasonable, cruel & unjust, to suffer those, who were the wicked occasion of those losses, to obtain a restitution of the Estates they refused to protect, and which they have abandoned, & forfeited to the Justice of their Country

12thly That whereas persons of the above description, have already made various attempts to introduce themselves into this Government, and thereby to establish principles & precedents by which others might be admitted, & restored to their forfeited Estates; That this town will adopt every reasonable, and consistent measure to prevent so great an evil; and that it is their expectation and earnest desire of Samuel Curtis, Esqr., whom they have chosen to represent them at this critical period, that he will with *firmness & Steadiness*, continue his patriotic exertions for the above purpose, That he will use his influence, to have those good & wholesome laws, touching the matter, duly executed, and such others enacted, as events and circumstances from time to time may render necessary; That he will receive a copy of the above votes—to the principles of which—The principles of a Sovereign & Independant Government—the principles of our free Constitution—and those great principles which has carried us triumphantly thro' a severe & bloody conflict—to those principles, he will invariably adhere, and make them the governing rule of his conduct—as that alone under heaven, has given energy to war, and will give *dignity to peace*, and make life happy.

13thly That it is the expectation of this town, & their earnest request of their Committee of Correspondence, Inspection & Safety, that they will with care & vigilance observe the movements, & watch the conduct of our only *remaining Enemies*,—That untill further order of Government, they will with decision, spirit & firmness, endeavour to enforce, & carry into execution, the several laws of this Commonwealth respecting those Enemies to our rights, & the rights of mankind; Give information should they know of any *obtruding* themselves into any part of this State, suffer none to remain in this town, but cause to be confin'd immediately, for

the purpose of transportation, according to law any that may presume to enter.
